

Product Code . DS-DASGAGM-10470

High-Resolution Digital Gloss Meter

Description

High-Resolution Digital Gloss Meter

Description:-

One-touch calibration—calibration surface is built-into protective cap.

Use this gloss meter to evaluate the gloss of any coated surface, check paints or inks, inspect print materials, and more! Using an infrared source that emits a beam of light at an angle to the surface, a sensor measures the reflected light.
