## Visible and UV/Visible Scanning Spectrophotometers

### Description

---

#### Visible and UV/Visible Scanning Spectrophotometers

##### Description:-

Designed with your convenience in mind, the spectrophotometers provides accurate and reliable results in various applications from teaching, to industrial applications, to routine sample analysis in quality control environments. The home screen provides easy access to measurement modes as well as saved results and methods. Navigation is fast and intuitive on the large 7" high-definition color touchscreen display. View scans and curves, zoom in and out, and select points right on the screen even when wearing gloves.

- Make setup easy with the user-friendly 7" high-definition color touchscreen and interface.
- Versatile—compatible with a wide range of interchangeable accessories
- Choice of measurement modes let you handle a multitude of applications
- Simple connectivity with multiple USB ports for data storage and printer connectivity.
