

Product Code . DS-TGAV-10576

Advanced Ultrasonic Coating Thickness Gauges for Non-Metals

Description

Advanced Ultrasonic Coating Thickness Gauges for Non-Metals

Description:-

They also measure total thickness of a coating system or up to three individual layer thicknesses in a multi-layer system. Also features easy-to-read graphic display readout for clear detailed analysis of the coating system. The advanced ultrasonic coating thickness gauges non-destructively measure the thickness of coatings on non-metal substrates including wood, plastic, composites, and more.
