

Product Code . DS-AAM-10600

Vane Thermoanemometers with Calibration

Description

Vane Thermoanemometers with Calibration

Description:-

The air measuring instruments offers different levels of functionality, allowing you to select the one that best meets your application needs and budget. All models measure airflow and temperature. Min/Max readings are also captured. The tough ABS plastic housing and membrane keypad allow the anemometers to be used in harsh environments. The compact meters are designed for intuitive, instruction-free operation and have a Hold button to freeze display readings for easy recording of results. A high contrast LCD display with 3/8" digits make it easy to read.

- Easy to grip design
- Easy-to-use keypad
- Get accurate, reliable measurements with included NIST-traceable calibration.
