CFM/CMM Vane Thermoanemometers

Description

CFM/CMM Vane Thermoanemometers

Description:-

These thermoanemometers are perfect for use in lab or plant maintenance applications, environmental analysis, fume hood testing, and HVAC applications. Each meter simultaneously displays air volume (CFM), air velocity and ambient temperature (°F or °C) on the large backlit display.

- View measurements in low light areas with backlit display
- Handheld air vane with 4-foot (1.2 m) cable length offers greater measurement flexibility
- 20 point average function for airflow
- Simultaneous display of ambient temperature and airflow or air velocity
- Up to 8 easy-to-set area dimensions (ft² or cm²) are stored in the meter's internal memory.
