

Product Code . DS-AAM-10614

Precision Vane Anemometers with 2.75" Vane

Description

Precision Vane Anemometers with 2.75" Vane

Description:-

Precision Vane anemometers are simple to use yet offer excellent air velocity accuracy even at low flow rates. Feature Min/Max (air and temp only), data Hold, and auto power off. Large display with backlight lets you view readings easily. Industrial grade enclosure and probe lets you measure airflow in extreme environments from -20 to 100°C (-4 to 212°F). Rugged metal rotating vane is ideal for industrial use.
