

Product Code . DS-AAM-10629

Air Velocity Meters

Description

Air Velocity Meters

Description:-

These Meters simultaneously measure and datalog several ventilation parameters using a single probe with multiple sensors. Great for cleanroom filtration airflow measurements — they automatically calculate volumetric flow rate for round, square, and rectangular areas. All Measure velocity, temperature and calculate flow.

- Displays up to three measurements simultaneously
- Logs up to 12,700 samples and 100 test IDs
- Available with manual or continuous data logging.
