

Product Code . DS-AAM-10636

Hot-Wire Anemometers

Description

Hot-Wire Anemometers

Description:-

They provide $\pm 2\%$ of reading accuracy which is essential for applications such as cleanroom certifications, laminar flow measurements, and R & D product development. Use the Automatic Atmospheric pressure compensation function for precise readings. Smart probe technology lets you change probes without recalibrating the main unit—order probes separately to create your system. Special platinum-coated sensor provides excellent stability and durability.
