Printing Digital Manometers with Calibration

Description

Printing Digital Manometers with Calibration

Description:-

This Digital Manometer, vacuum/pressure gauge, can read and display 11 different units of measure. The backlit digital display, 5/8" H LCD, is easy to read—even from 6-ft away. Typical response time is 0.5 seconds. Obtain either gauge pressure/vacuum or differential pressure measurements. Create hard copies of data—on the spot with the integrated printer. Store up to 12,000 recordings in the memory, freeze the display with the HOLD feature, and recall MIN/MAX readings. Printouts includes date and time stamp to meet strict conformity requirements.
