

**Product Code . DS-AAM-10662**

## **Handheld Micromanometer with Capture Hood, USB output**

### **Description**

---

#### **Handheld Micromanometer with Capture Hood, USB output**

##### **Description:-**

This airflow capture hood kit accurately measures supply and return volumetric airflow through registers, grilles, and diffusers. Temperature and back-pressure compensation ensure precise readings, even for large-volume applications.

- Easy readings - tiltable screen is viewable from any angle or height.
- Ideal for HVAC, TAB, and cleanroom certification applications.
- Lightweight design for single-person operation.
- Download up to 3000 readings to PC for analysis.
