

Product Code . DS-HP-10698

Multi-Function Thermohygrometers

Description

Multi-Function Thermohygrometers

Description:-

Compact and rugged design featuring a large display. Ideal for monitoring environmental conditions. Measure temperature, humidity and dew point in a variety of applications including industrial, research, and building inspection. These thermohygrometers simultaneously display any two parameters, temperature, humidity or dew point. Meters can also be calibrated in the field using optional RH calibration standard salts. View measurements in low light areas with backlit display.
