

**Product Code . DS-HP-10708**

## Thermohygrometers with Wireless Capability

### Description

---

#### Thermohygrometers with Wireless Capability

##### Description:-

A rugged designed rubberized housing offers protection against dirt and impact, also equipped with a convenient carrying strap and built-in mounting magnets. Meter requires the probes to be ordered separately from a impressive range of options. Function keys provide access to advanced features including differential, mean, min/max, hold, programmable data files, and user-defined profiles. These meters have an impressive range of optional probes that can measures humidity, temperature, moisture, dew point, and absolute pressure within seconds. Five probe inputs ensure maximum flexibility: two cable inputs and three wireless inputs. All inputs are displayed on a large, backlit display for easy viewing.
