

Product Code . DS-HP-10716

Pocket Size Heat Index Psychrometer Pen, Built-In Sensor

Description

Pocket Size Heat Index Psychrometer Pen, Built-In Sensor

Description:-

These Pocket-Sized Pens monitor heat index and wet bulb globe temperature. Heat index is a measurement of how hot it feels when humidity is combined with temperature, air movement, and radiant heat. Both heat index and WBGT are critical for monitoring conditions to prevent heat stroke during indoor or outdoor activities such as factory conditions or sporting events. WBGT considers the effects of temperature, humidity, and direct radiant from sunlight.

- Pen-sized design makes it convenient to fit into your pocket
- Min/Max/Avg/Hold readings and auto power off
- User-programmable alarm warns you when you are at risk of heat stroke
- Monitors heat index during hot and humid days to prevent heat stroke.
