

Product Code . DS-MM-10731

## Precalibrated Pocket Size Moisture Meter

### Description

---

#### Precalibrated Pocket Size Moisture Meter

##### Description:-

Measure the moisture level in wood and hardened materials. Low battery indication. Rugged pocket sized meter with one-handed operation. The Pin-Style Pocket Moisture Meter is used to measure the moisture level in wood products and hardened materials. It displays the moisture level in the material as a percentage and temperature in selectable °F or °C units. Easy to use—simply insert the electrode pins into the material as far possible into the testing area. Advanced features include °F/°C unit selection, wood or material humidity measurement mode, backlit display, low-battery indicator, and auto power-off. Repeat the measuring process several times in the surrounding areas to get a greater representation of the moisture content of the area being evaluated.
