Ball-Probe Moisture Meter with Bluetooth

Description

Ball-Probe Moisture Meter with Bluetooth

Description:-

This noninvasive pinless moisture meter, with wireless connectivity, features a ball probe sensor which allows you to survey large areas quickly without leaving a mark. Easily detect moisture in a wide range of building materials from plywood, drywall, brick, concrete, cement, to plaster. Measure corners, uneven surfaces, and around baseboards to detect moisture problems up to 4" (100 mm) below the surface. Features include data hold, min/max readings, high moisture audible alarm, firmware upgrades via micro USB port, auto power off after 30 minutes of inactivity, backlit LCD, integrated LED flashlight, and tripod mount.

- Rugged, durable IP40-rated housing can withstand a 6.6-ft (2-m) drop.
- Inspect dim areas with bright LED flashlight and backlit display.
- Bluetooth connectivity provides wireless data transfer to mobile devices.
