

Product Code . DS-MM-10738

Moisture Meters for Wood

Description

Moisture Meters for Wood

Description:-

The meter also features an audible out of range alarm, internal calibration check, 100 data point memory, and average/maximum readings. This popular meter uses a wood scale that ranges from 6 to 40% with built-in calibrations for 48 individual wood species. The contact pins mounted on top of the meter provide 5/16" (0.8 cm) penetration for testing wood up to 1" (2.5 cm) thick.
