

Product Code . DS-LE-10797

Energy Meter

Description

DESCRIPTION :-

Low power consumption

Meter records correct energy with same accuracy under reverse current connection.

Meter works accurately under earth load condition.

LED's indication for current reversal and earth load tampering.

Immune to effects of external magnetic field

Rain and dust test as per UL-50

Measurement registers positive energy if current flow in reverse direction,

Connection: 1-phase, 2-Wire, bottom connected

Accuracy Class: Class 1

Rated Voltage: 240V

Rated Current: 10(40)A

LCD Display : 6 digits
