

Product Code . DS-LE-10965

Tripod Stand

Description

DESCRIPTION :-

Cast iron top and mild steel legs painted

Zinc coated legs are bent outwards stability

Zinc coated legs are bent outwards for stability.

A tripod is a portable three-legged frame, used as a platform for supporting the weight and maintaining the stability of some other object.

A tripod provides stability against downward forces and horizontal forces and movements about horizontal axes.

A laboratory tripod is a piece of three-legged equipment commonly used to conduct experiments in laboratories.

It is used as a platform to hold and support glassware, such as beakers and flasks, during experiments

Size : 100 x 150 mm
