

Product Code . DS-P-11158

Bar Magnet

Description

Catalogue No. : "IDAC4508/4.8"

DESCRIPTION :-

- The magnetic surface is located at the end of the magnet, and the middle position is non-magnetic.
- The magnet is small and portable, very suitable for children's teaching.
- The north and south poles are clearly visible. Since the magnet is fragile, please handle it with care.
- The teaching magnet is specially designed for children's learning. Its magnetism is very weak and can only absorb small objects such as coins and keys.
