

Product Code . DS-P-11222

Falling Body Apparatus

Description

Catalogue No. : "IDAC3811/025"

DESCRIPTION :-

- To demonstrate that a body impelled horizontally will have vertical acceleration same as that of a body falling freely.
- Two 19mm dia steel balls are launched by releasing a push button.
- This projects one ball forward and the other falls freely.
- This mechanism is mounted on a wooden block 17 x 6cm (length x width).
