

Product Code . DS-EE-11476

Digital Wattmeter

Description

Features:

- Digital Watt Meter Microprocessor based 3 phase and single phase Power Factor measurement.
- Meters can be factory set for different CT/PT ratios to give a direct reading.

Technical Features:-

- Display Type Digital
- Three Phase
- Current Ranges: 0.1A, 0.5A, 1A, 5A
- Voltage ranges 3V, 15V, 30V, 240V, 450V
- Power measured 0.3 W-2250 W (rated capacity)
- Frequency ranges 0-3kHz
- Accessories: Test lead, Battery and User manual
