

**Product Code . DS-EE-11515**

## Soldering Iron

### Description

---

**Catalogue No. : “IDAC113/05”**

#### DESCRIPTION :-

- The soldering iron is upgraded 80W High Power, and can make the soldering iron quickly heat up within 20 seconds
- This soldering iron can accurately adjust the temperature and a flexible temperature range of 180°-480° / 356°F-896°F.
- Clear Digital Display : A high-definition LCD screen display, which indicates the temperature status more clearly, so you don't need to worry about finding the right temperature for each welding job.
- Efficient Heat Dissipation and Anti-scalding Handle : The four ventilation holes on the solder tip provide better heat dissipation than others. Heat-resistant handle can insulate temperature effectively and is more suitable for long-term welding and repair work.
- Wide Application : widely used for welding circuit board, appliance repair, jewelry and metal headress making, computer, and DIY. Very suitable for beginners, welders, basic household equipment, welding engineer training, etc.

#### Specification :-

- 
- Power Rating: Max. 80W-100W
  - Voltage Rating: Max. 240V AC, 50/60Hz
  - Length: 230mm
  - Complete Set with standard Accessories
  - Equipped with long life soldering tip
-
