

Product Code . DS-EE-11573

Spray Gun with Container

Description

Catalogue No. : “IDAC108/062”

DESCRIPTION :-

- This sprayer can be adjusted to 3 different spray patterns: horizontal, vertical and circular, equipped with 3-size copper nozzles(1.8mm/2.6mm/3.0mm) for any painting projects.
- 1.8mm and 2.6mm nozzles are great for thin paints like sealers and varnish.
- 3.0mm nozzle is great for spraying latex paint and milk type paint. 3 fine copper nozzles can bring the sprayer better durability compared to plastic nozzles.
- Adjustable Speed Dial : Regulate your paint output speed by easily adjusting the flow control knob on the sprayer to get different paint output.
- Paint slowly in narrow space and powerfully in large area.
- It is suitable for edges, corners and broad interior surfaces of various work and DIY projects.
- Capacity: 800 ml container
- Input Power: 450W
- Pure copper nozzle
- Pure copper Core.

-
- Flow rate- 0.1-0.2 bar.
 - Maximum flow rate-380 ml/min.
 - Item weight-140-150 kg.
